Good morning Danny,

Matt asked me to get up to speed on the club financials. We are both under the impression that ARFC is now it's own subaccount. Would you share the banking login information with us so we can start keeping an eye on cash flow? Visibility into this will become critical as we move forward with hiring a full time position.

Thank you in advance,

Daniel

That is incorrect. The account is one account. I am not sure where that misunderstanding came from.

The monitoring from your side is registration and sponsorships received also coaches pay. This should give us better details on that info that was controlled by the DOC and Registrar. This is info that was always difficult to get.

I would be happy to meet with both of you if more info is needed.

Thank you

Danny

Danny,

I do think we should schedule a meeting between the three of us as I want to make sure I'm doing my due diligence with my responsibility to the club. There is no legal reason to prevent us from having an ARFC sub-account that we can use exclusively for Revolution funds, and in fact, this could help us account for any restricted funds donated to Revolution, as well as simplifying our reporting to the board and helping us budget and make wise decisions with the club's finances.

I'm happy to buy lunch any day this week that works for you gentlemen so we can discuss a path forward.

-Daniel

I am free for lunch tomorrow or Thursday. I would like to make sure I have a good handle on the financials so the Board can make a fully informed decision on hiring.

Thanks,

Matt

I do not have a lunch hour free until Friday.  
I am open Wednesday morning or Friday morning also.

Thanks  
Danny Kapales
